

Hi-Fi HDTV TRIPLE TUNER RECEIVER WITH LAN

Just what the doctor ordered!

LARGE AND STYLISH RECEIVER. FOR THOSE WHO CAN AFFORD

F22

- **Stylish Piano Black** 430mm (17") case for Hi-Fi stand
- **Best of two worlds:** Linux and RTOS versions to be released
- **Any Network, Any Signal:** three tuners, 1 is interchangeable, so STB can be: 2* DVB-S2 + DVB-T2, 2*Satellite + DVB-C, DVB-C + DVB-T, (DVB-T2 for Great Britain), etc
- **SATA Hard Disk inside** (2.5", 3.5") for PVR functions, time-shift, etc.
- **Media player**
- **Weather station** (no IP connection needed)
- **USB ports:** enough (+ optional SD card-reader)
- **Spectrum Analyzer**
- **Internet Widgets** via **IP LAN** connection
- **SILENT.** Yes, this set-top box is not just as quiet as competitors can be, it is **silent**. Fan-less design, green eco-friendly solutions, low heat emission. Buy a SSD (Solid State Drive) HDD to complement this 100% quiet solution.
- **Analog Video input** for **high-quality** (better than most PC cards) digitizing your VHS-tapes, security, etc
- **ENOUGH** card-readers and Common Interface slots
- **Upscaler** for best viewing experience with SD channels on HDTV panels
- **Our well known hi-fi Video Output Circuits** for a quality picture

IT IS FUN TO USE and GOOD PICTURE
(special algorithm upscaler and special video output solutions)
